HOME

ADVENTURES PEOPLE OTHER WORK ABOUT

My photography website, laid out on web-building platform Wix. No template were used—just blank pages. The website is intuitive and user-friendly, yet retains a clean, minimalist feel.

**next page** The *Ecuador* page, under *Adventures*. Each adventure page has geographic coordinates, photographs, and a travel story. The *About* page, with a short text about me, keeps the same aesthetic.

## ABOUT

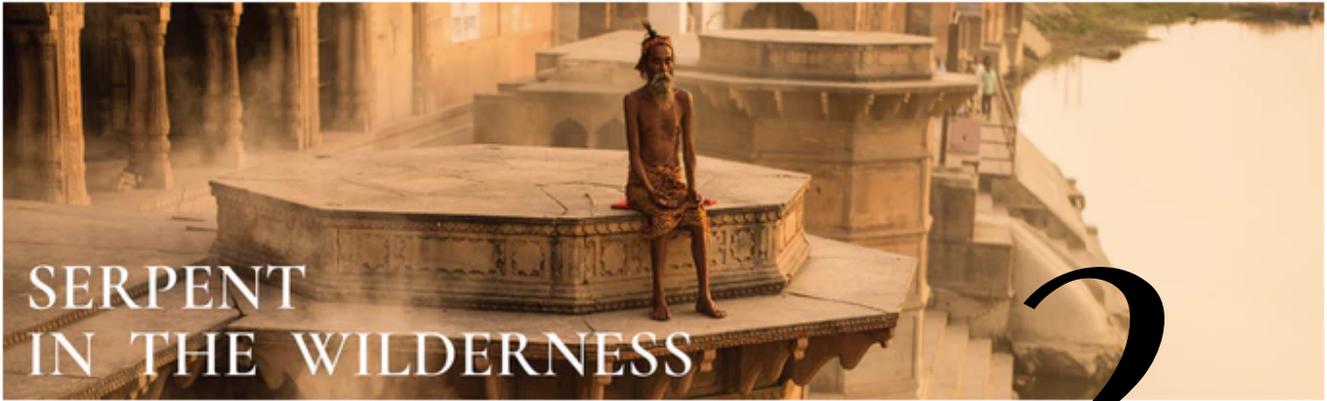

My name is Marin, I'm a photographer from Versailles, France, currently living in St Paul, MN. I've always been drawn to exploring and adventuring, partly thanks to the many travels I did with my family as I was growing up. Although (my) home is where my heart is, I feel happiest when I'm traveling, exploring new horizons, and getting out of my comfort zone.

While photography is my main passion, and one of my strongest motivations to go out and explore, I also engage in other creative endeavors, like music production, graphic design, and illustration.
